Bill Strickland

"The Art of Leadership and the Business of Social Change"

"A successful life is not something you simply pursue – it is something that you create, moment by moment." Bill Strickland

Join us at Emporia State University to hear about one man's crusade
to inspire others to dream bigger and achieve the extraordinary

<http://www.emporia.edu/bonner/>

Through his leadership as president and CEO of the Manchester Bidwell Corporation he created an extraordinary jobs training center and community arts program to give disadvantaged kids and adults the opportunities they need to build a better future. Strickland and his staff turned this near bankrupt community training center in Pittsburgh into one of the most successful organizations in America. Building on that success, new centers have been built in Cincinnati, San Francisco, and Grand Rapids, Michigan.

His accomplishments as a leader and humanitarian are reflected in the thousands of people who have raised themselves out of poverty and into the world of full-time employment, through the organizations that Strickland built.

Strickland will inspire you to make a difference; in your life and in the lives of those around you. He delivers a profoundly simple, optimistic message for leaders: give people the tools they need, treat them with respect, and they will perform miraculous deeds.

"A successful life is not something you simply pursue – it is something that you create, moment by moment."

Strickland, along with Vince Rause, is the author of "Make the Impossible Possible, One Man's Crusade to Inspire Others to Dream Bigger and Achieve the Extraordinary."
